Dear judges of the IDB Prize,

As the head of board of directors of the Green Front of Iran (GFI), it is my great honor and pleasure to recommend Saideh Ghods for this award. Mrs. Ghods was the first woman to join GFI the as part of the founding team and since then she has contributed greatly to our purpose.

The Green Front of Iran has been active in raising public awareness on environmental issues for nearly two decades. Currently, Mrs. Ghods is an honorable member of our board of trustees and having her as part of our board has brought much credibility and stature to our organization and given strength to our cause.

I personally cannot think of any of other woman more qualified to receive recognition for her selfless and unrelenting work in making our society a better place to leave for everyone. She is a true philanthropist.

Sincerely,
Janet Moerir
Head of board of Directors
Green Front of Iran
